

Dear bookworm,

The issue on one's security in Christ (eternal security) is one that often plagues more believers than we might imagine. For some the trouble it causes them is deep and profound. Believing that answers to the issues we face and that true comfort comes by the Holy Spirit using the living Word of God, it is to the Holy Scriptures that we must turn. "Absolutely Sure" is aptly titled as it shows through the Word how we can be absolutely sure of our eternal rescue from death to life. This is a very good book to both read and give to anyone, not just those who may struggle with their security in Christ.
