

Dear fellow bookworm,

The words we speak have great power, and God expects us to use our words to glorify Him and one of the ways that we do that is through encouragement. Our new selection deals with just that entitled “Encouragement: How words change lives” is truly an excellent read.

For many, our Sunday conversations (or conversations on any other day) rarely get past the weather, sports or what we did yesterday. And though there’s nothing wrong with this, it’s a wasted opportunity. Especially when we are commanded—to speak God’s life-transforming word and thereby encourage each other.

So what is ‘encouragement’ exactly? And how does it work? In this book, Gordon Cheng explains what encouragement is and how all of us can make one simple and foundational contribution to church life by encouraging others. You’ll discover how encouragement is not only central to our church life; it is part of one of the most powerful themes in the whole of Scripture: the power of God’s word to change lives.

Seeking to encourage you in your walk,  
The proverbial bookworm
