

Dear Bookworm,

My two youngest said, "Dad you must read this book, it's great!" That's a twist - usually I'm the one telling them that there is a book they need to read.

I picked up the book and a few hours later I was finished. I then sat down and sent myself an e-mail so that I would order the book immediately. The book, *Not Even a Hint*, by Joshua Harris, is on lust, sexual purity if you will, written for both men and women, young and old. It is well written, delicate yet direct, and practical. You know - useful. I cannot encourage you to read this book too strongly. You'll be glad you did!
